the monograph is about a meta theory of knowledge production process and the logical pathway that connects the epistemic possibility to the epistemic reality it examines the general conditions of paradigms for information processing and isolates the classical and fuzzy paradigms for comparative analysis the sets of conditions that give rise to them are defined stated and analyzed to abstract the corresponding sets of laws of thought the fuzzy paradigm with its corresponding logic and mathematics is related to inexact symbolism for the defective information structure where the results of the knowledge production must satisfy the epistemic conditionality composed of fuzzy conditionality and fuzzy stochastic conditionality under the principle of logical duality with continuum the classical paradigm with its corresponding logic and mathematics is related to exact symbolism for exact information structure where the vagueness component of the defectiveness is assumed away and where the results of the knowledge production must satisfy no epistemic conditionality or at the maximum only the stochastic conditionality under the principle of logical dualism with excluded middle it is argued that the epistemic path that links ontological space to the epistemological space is information the ontological space is taken as the primary category of reality while the epistemological space is shown to be a derivative such information is universally defective

and together with assumptions imposed guides the development of paradigms with their laws of thought logic of reasoning mathematics and computational techniques the relational structure is seen in terms of logical trinity with a given example as matter information energy transformational trinity which is supported by the time trinity of past present future relationality the book is written for professionals researchers and students working in philosophy of science decision choice theories economies sciences computer science engineering cognitive psychology and researchers working on or interested in fuzzy paradigm fuzzy logic fuzzy decisions and phenomena of vagueness and ambiguities fuzzy mathematics fuzzy stochastic processes and theory of knowledge it is further aimed at research institutions and libraries the subject matter belongs to extensive research and development taking place on fuzzy phenomena and the debate between the fuzzy paradigm and the classical paradigm relative to informatics synergetic science and complexity theory the book will have a global appeal and across disciplines its strength besides the contents is the special effort that is undertaken to make it relevant and accessible to different areas of sciences and knowledge production

this is a collection of classic research papers on the dempster shafer theory of belief functions the book is the authoritative reference in the field of evidential reasoning and an important archival reference in a wide range of areas including uncertainty reasoning in artificial intelligence and decision making in economics engineering and management the book includes a foreword reflecting the development of the theory in the last forty years

the oxford handbook of international legal theory provides an accessible and authoritative guide to the major thinkers concepts approaches and debates that have shaped contemporary international legal theory the handbook features 48 original essays by leading international scholars from a wide range of traditions nationalities and perspectives reflecting the richness and diversity of this dynamic field the collection explores key questions and debates in international legal theory offers new intellectual histories for the discipline and provides fresh interpretations of significant historical figures texts and theoretical approaches it provides a much needed map of the field of international legal theory and a guide to the main themes and debates that have driven theoretical work in international law the handbook will be an indispensable reference work for students scholars and practitioners seeking to gain an overview of current theoretical debates about the nature function foundations and future role of international law

the deeper man s knowledge of the universe the bigger his questions have become following in the successful footsteps of the arrow of time stephen hawking s bestseller a brief history of time and the works of timothy ferris science writer john barrow presents an ambitious yet accessible look at the quest for the holy grail of modern science
