glencoe geometry is a key program in our vertically aligned high school mathematics  
series developed to help all students achieve a better understanding of mathematics and  
improve their mathematics scores on today's high stakes assessments

this is the first comprehensive international handbook on the history of mathematics  
education covering a wide spectrum of epochs and civilizations countries and cultures  
until now much of the research into the rich and varied history of mathematics education  
has remained inaccessible to the vast majority of scholars not least because it has been

written in the language and for readers of an individual country and yet a historical overview however brief has become an indispensable element of nearly every dissertation and scholarly article this handbook provides for the first time a comprehensive and systematic aid for researchers around the world in finding the information they need about historical developments in mathematics education not only in their own countries but globally as well although written primarily for mathematics educators this handbook will also be of interest to researchers of the history of education in general as well as specialists in cultural and even social history

classroom resource material allowing the integration of mathematics history into undergraduate mathematics teaching
